

Number Types – www.m4ths.com

3, 7, 16, 8, 23, 17, 1, 9, 12, $\frac{1}{4}$

- (a) Write down all of the odd numbers
- (b) Write down all of the square numbers
- (c) Write down all of the factors of 16
- (d) Write down all of the multiples of 3
- (e) Write down all of the cube numbers
- (f) Write down all of the prime numbers
- (g) Write down the non-integer.
- (h) Write down two numbers with a difference of 8

0.35, 25, 17, -3, 27, 4, 11, 32, 5, 10

- (a) Write down all of the even numbers.
- (b) Write down all of the square numbers.
- (c) Write down all of the factors of 10.
- (d) Write down all of the multiples of 4.
- (e) Write down the cube number.
- (f) Write down all of the prime numbers.
- (g) Write down the non-integer.
- (h) Write down the negative number.
- (i) Write down two numbers that sum to 16

-6, 14, 64, 36, 13, 29, 18, 1.46, 12, 7

- (a) Write down all of the odd numbers.
- (b) Write down all of the square numbers.
- (c) Write down all of the factors of 36.
- (d) Write down all of the multiples of 6.
- (e) Write down the cube number.
- (f) Write down all of the prime numbers.
- (g) Write down the non-integer.
- (h) Write down the negative number.
- (i) Write down two numbers that multiply to give 84.

-1, 12, 100, -26, 0.245, 16, 1246, 20

- (a) Write down all of the odd numbers.
- (b) Write down all of the square numbers.
- (c) Write down all of the factors of 40.
- (d) Write down all of the multiples of 6.
- (e) Write down the cube number.
- (f) Write down all of the prime numbers.
- (g) Write down the non-integer.
- (h) Write down the 2 negative numbers.
- (i) Write down a calculation that divides to give 5.

6, 66, 14, 9, 25, -13, 16, 1.089, $\frac{1}{2}$, 18, 1000

- (a) Write down all of the odd numbers.
- (b) Write down all of the square numbers.
- (c) Write down all of the factors of 6
- (d) Write down all of the multiples of 6.
- (e) Write down the cube number.
- (f) Write down all of the prime numbers.
- (g) Write down all of the non-integers.
