

**Area and Perimeter of Rectangles**

To find the area of a rectangle I

To find the perimeter of a rectangle I

Find (i) The area and (ii) The perimeter of each shape below. Make sure you use the correct units! (they are not drawn to scale)

A square has side lengths of 5m. Find the area and perimeter of the square.

A football pitch measures 90yds by 120yds. Find the area and perimeter of the pitch.

A rectangle has an area of  $56\text{cm}^2$ . One of the side lengths is 7cm. Find the other side length (draw it!!).

If the area of a rectangle is the length x the width what is the area of a triangle with the same dimensions? (draw it!)

A square has an area of  $36\text{ cm}^2$ . Find the perimeter of the square.

Find the area and perimeter of the shape below. (not drawn to scale)
