

'Find me a home 5' Round 1 – www.m4ths.com

Place the 5 numbers listed below in the 5 boxes given to make each statement true. You must use all of the numbers & can't use any number more than once. State clearly why you chose each number showing your calculations or thinking if necessary! "Because it is" is not a satisfactory reason for your choice!

1 2 3 4 5

| | | | | | |
|--|-------------------|---------------------------|----------------------|----------------------------|------------------|
| Statement | $2^{\square} = 8$ | $\frac{1}{\square} = 0.2$ | $3(\square + 2) = 9$ | $10 + 8 \div \square = 14$ | $\square^2 = 16$ |
| Why I chose it (You must be clear!) | | | | | |
