

'Find me a home 5' Round 3 (Non calculator of course!) – www.m4ths.com

Place the 5 numbers listed below in the 5 boxes given to make each statement true. You must use all of the numbers & can't use any number more than once. State clearly why you chose each number showing your calculations or thinking if necessary! "Because it is" is not a satisfactory reason for your choice!

-1 0 1 2 3

Statement	$-1 + 4(\square) = 11$	$9 = 3^{\square}$	$-12 - \square = -11$	$3 + 5 \times \square = 3$	$\frac{\square}{8} = 0.125$
Why I chose it (You must be clear!)
