

**'Find me a home 5' Round 5 (Non calculator of course!) – www.m4ths.com**

Place the 5 numbers listed below in the 5 boxes given to make each statement true. You must use all of the numbers & can't use any number more than once. State clearly why you chose each number showing your calculations or thinking if necessary! "Because it is" is not a satisfactory reason for your choice!

**-1   1/4   0   -4   1**

<b>Statement</b>	$1 \div \square = 4$	$1 = 4^{\square}$	32, 16, 8, 4, 2, $\square$	$4 - 8 = \square$	$4 \times -0.25 = \square$
<b>Why I chose it (You must be clear!)</b>
