(1) Use a protractor to find the size of each shaded angle below.

(2) Complete each Sentence below:
- **Acute angles** are less than ______ degrees.
- **Right angles** are exactly ______ degrees.
- **Obtuse angles** are more than ______ degrees and less than ______ degrees.
- **Reflex angles** are more than ______ degrees and less than ______ degrees.

(3) Use a protractor to find the size of each of the two shaded angles shown below.
(4) In a regular shape all of the angles are ______________ size.

(5) Use a protractor to find the size of each angle in the shapes shown below.

(6) Use a protractor to find whether the angles in each shape below are acute, right angles, obtuse or reflex. The first one has been done for you!
(7) In the space provided below draw each angle given:

**Acute Angles**

(i) 18°  
(ii) 70°  
(iii) 36°  
(iv) 61°

**Obtuse Angles**

(i) 107°  
(ii) 143°  
(iii) 92°  
(iv) 171°

**Reflex Angles**

(i) 218°  
(ii) 297°  
(iii) 193°  
(iv) 324°
(8) In the space below, construct a triangle with:

(a) One angle of 30°, one angle of 60° and one angle of 90°. You can use the line given to help.

________________________

(b) One angle of 70°, one angle of 70° and one angle of 40°. You can use the line given to help.

________________________

(c) One angle of 50°, one angle of 30° and one angle of 100°. You can use the line given to help.
